Chorus

Quilting and Sewing Machine

Sensor Pen for Sewing

Use the Sensor Pen to tell your machine exactly where you want your needle and stitches positioned.

You can use the pen to designate stitch width, placement, and a stopping point on your fabric.

Compact Digital Dual-Feed System

With the new Compact Digital Dual-Feed System you will have 7.0 mm clearance for stitching on multiple layers or high loft fabrics. A total of 36 utility and decorative stitches can now be used with this foot.

Quilting Extension Table

Expand your workspace with the included quilting extension table. It securely fits on your Baby Lock Chorus, so you maintain a smooth quilting surface.

Guide Beam for Sewing

Pave your stitching path with a beam of light. The Guide Beam makes continuous stitching easy to keep straight.

Multi-Function Foot Control

Start and stop your sewing with the main foot control and perform two convenient functions with the heel tap feature and side pedal. You can program the functions for this accessory through your machine.

Large Throat Space

Comfortably quilt with the Chorus's large throat space. 11.25" to the right of the needle leaves room for thick projects and bigger quilts.
