4-Thread Serger

ExtraordinAir® Threading

With just a burst of air, the looper threads are instantly passed through both loopers. Threading has never been this fast, easy, or extraordinary!

Needle Threading System

The needle threader holds the thread in place for quick and easy threading with just the touch of a lever.

Automatic Thread Delivery™ System (ATD)

Set your serger to the desired stitch type and get started! This system delivers a balanced stitch on any fabric and using any type of thread.

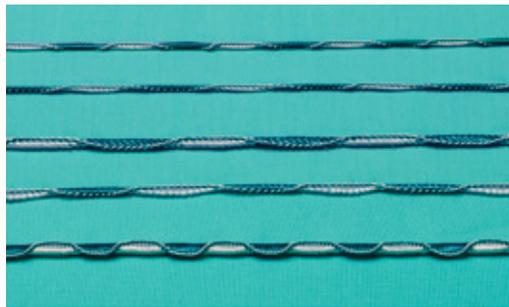

Advanced Knife Driving and One-Way Clutch System

Baby Lock has created a knife system with a larger cutting bite that cuts thicker fabric with ease and increased visibility.

Full-Featured Single Unit Differential Feed

We've taken differential feed to a new level by adding a single-unit feed dog mechanism. This ensures stronger feeding in addition to consistent gathering on most fabrics.

Expand your creative journey with the Exclusive Wave Stitch. By combining different thread colors, types, and weights along with stitch widths you will find it easy to create one-of-a-kind looks.
